---

### Why Dongrae Waste rag?

---

Dongrae Waste Co., Ltd. is by far the largest wiping rags recycler in Korea and the supplier of the highest quality wipers in the industry. All of our recycled cloth has been laundered and sanitized which assures you that the product you are purchasing is safe, clean. And cutting proper size for cleaning with removing button, zip helps greatly reduce the amount of waste. They are easier to handle, come in water resistant bags. We are also Kimberly-Clarks agency, so we are ready to clean all kinds of messes with low-cost.

### White wiping rags (IMPA:232906,232907)

Recycled white knit is cut from white t-shirts and other recycled knit apparel. Soft, absorbent and virtually lint-free. 90% over white cotton sterilized.

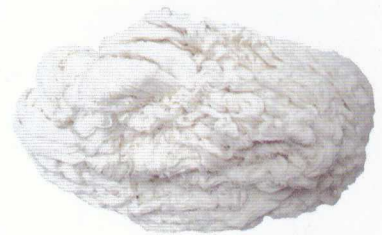

### Color wiping rags (IMPA:232908,232909)

Recycled color knit is the most widely used wiper in industrial applications. Soft, absorbent, sturdy, economical. 90% over color cotton sterilized.

### White waste cotton (IMPA:232901,232902)

100% cotton waste. Soft, absorbent, not recycled, no accessory.

### White industrial wiper

White industrial wiper is thin cotton wiper and is very soft, smooth. 80% over white cotton sterilized, not recycled, no accessory.

### Towel wiping rags

Recycled towel rag is used for heavy duty cleanup. 100% cotton sterilized, thick and soft, extreme absorbent.

---

We have also varieties of paper wiping rags what you need.
